TO ERR IS HUMAN

 Download & read full

article

2+2=5 can mean a lot of things. For example:

- The whole is greater than the sum of its parts;
- It is a brain teaser; Or
- Basic arithmetic error

Did you know that 76% of insider incidents is caused by the accidental insider? Who would have thought?

Given that this is reality, would you like to know how you can mitigate such risks? This article provides you with a three-step process to help you minimize such incidents.

For more information, download this article. As usual, if you have any feedback, we would love to hear it from you.
